EXPERIENCE

Nizcare, Trichy — *Web Development & IT Operation*

June 2024 - PRESENT

- **Developed and deployed TaskGo**, a multi-tenant SaaS-based task management platform with role-based access (Super Admin, Company Admin, and Users). Implemented full CRUD functionality, real-time updates, and secure data isolation across tenants.
- **Revamped the UI of the Nizcare home website and internal dashboard**, ensuring a responsive, modern, and user-friendly interface using React and Tailwind CSS.
- **Created multiple responsive and brand-consistent email templates** for corporate clients and insurance brokers, optimizing compatibility across various email clients.
- Integrated lab vendors into the internal dashboard and Assigned user-specific health packages to respective labs.

PROJECTS

Task Management — *Detail*

- Developed **TaskGo**, a multi-tenant SaaS task management platform with secure role-based access (Super Admin, Company Admin, Users) and isolated data handling using unique tenant IDs.

- Implemented features like task assignment, deadlines, priority levels, daily reporting, and real-time dashboards to enable seamless project tracking and team collaboration across multiple organizations.

Nizcare Website & Dashboard UI Enhancement — *Detail*

- Redesigned the **Nizcare public-facing website**, improving layout, responsiveness, and overall user experience to ensure better accessibility across all devices.

- Enhanced the **internal dashboard UI**, streamlining workflows for operations and medical teams through improved navigation, visual consistency, and intuitive design components.
